

## COVID-19 UPDATE

## REAL ESTATE IS ESSENTIAL

We believe that real estate is essential and that you are essential too. With the latest change of deeming our business essential, we wanted to illustrate the business impact that our industry has on our local economy and the many variety of businesses that represent the real estate ecosystem. The Greater San Diego Association of REALTORS® is committed to protecting and growing your business. We are grateful to our members and the businesses that represent our industry to contribute to the San Diego County economy.

Real Estate is more than just buying and selling homes! The businesses and services below are a representation of how we impact our community.
