

## **SentriLock - The No. 1 Electronic Lockbox for REALTORS® is Making Access to Listings for SDAR Members Easier than Ever!**

You may have heard that SentriLock has added new features to the latest version of its SentriGuard Bluetooth enabled lockbox. Some of the best features in the newest version include:

- **Never be left out in the cold again!** The lockbox will work and provide access even if you are in an area with no Wi-Fi or cell phone coverage. Your smartphone can still communicate through Bluetooth to gain access to the property.
- **Safe and Secure!** Designed to withstand just about anything – you and your clients can feel safe knowing you are using the lockbox with the highest security rating in the world that has been independently tested and with an approved attack rating. The agent safety features help protect REALTORS® by sending alerts to emergency contacts when activated.
- **Instant Notifications.** Give your clients peace. Showing notifications are instantly sent with the lockbox is opened and when the showing is finished.
- **Long-Lasting Batteries.** Longest lasting battery on the market with a built-in battery backup, just in case!

### **I heard a rumor that my old Generation 1 or 2 lockbox will stop working on March 31. Is this true?**

This is not entirely true, and our Association does not want you to be forced to spend money to upgrade your lock box until you are ready upgrade. Here's what you need to know about the Generation 1 and Generation 2 lockboxes that use card access. The administrative cards will no longer work after March 31. That means that your ownership of the old boxes cannot be transferred to another REALTOR. However, the box will continue to work, and batteries can be replaced for as long as batteries remain available. If your lockbox stops working because it's old and tired, you can bring it to the Association and upgrade as outlined below or you have the option for \$50 to receive a refurbished older generation Bluetooth enabled lockbox.

If your batteries are old, or you haven't used your lockbox in the last 12-month, change your batteries and reset the lockbox clock to ensure your lockbox continues to work after March 31<sup>st</sup>. If the old box displays "Code" then "Error" it will require a reset to work after March 31<sup>st</sup>. Need help?, Come by our Kearny Mesa office or any service center during business hours and our Membership Services Staff will gladly help you.

### **Trade In the Old and Upgrade Now or In the Future**

If it's time to retire that old looking lockbox and get back to the future now, upgrade to using the newest SentiGuard Bluetooth lockbox. We want your listings to look their best and for you to be able to trade up to the latest and greatest at the lowest cost possible.

So, when you're ready, now or in the next few years, we'll upgrade your old Generation 1 and Generation 2 Sentrilock boxes at a discounted price of \$107. Just bring your old and ugly to our Kearny Mesa office or to any of our Service Centers throughout the county and walk out with the future in your hands. Again, you can upgrade now or when you're ready over the next few years.

### **Do I need to be an SDAR member to upgrade my old Generation 1 or Generation 2 Sentrilock lockbox?**

Heck, no! We're here to help and we are happy to offer our discounted pricing to all REALTORS®.

**Thank you for your partnership with SDAR. We're here to make your real estate life simpler and better!**
